

COVID-19 Guidelines

Currently, we are running an appointment only service.

If you wish to book an appointment or collect products, please call 0131 225 1422 or email: solutions@theskinspaedinburgh.co.uk

Please arrive at your appointment time and wait outside the building at the main door. Your therapist will meet you and take you to the treatment room.

You will be required to wear a face mask unless you are unable to for medical reasons and use the automatic hand sanitizer when entering the building.

Please arrive on your own.

In addition to our already thorough cleaning routine, we are allocating 30 minutes in-between each client to ventilate the treatment room and provide additional time for cleaning and sterilising.

High contact areas such as the card machine and door handles will be cleaned after each client.

Therapists will be wearing PPE equipment during your treatment.

If you are feeling unwell or experiencing any of the following, please re-schedule your appointment:

New continuous cough

High temperature or fever

Change in, or loss of smell and/or taste

If you have been asked to self-isolate

If you have been in contact or caring for someone who has been diagnosed with Covid-19
