

SKIN AND LASER CLINIC OF THE YEAR

SkinSpa

Founded in 2010 by clinic owner Shadaya Philp, SkinSpa specialises in advanced laser and skin treatments for both men and women. Catering mainly to clients in Edinburgh, Fife and Glasgow, Shadaya and her team work hard to ensure all clients leave the clinic feeling rejuvenated and confident both inside and out. All treatments offered are tailored to suit individual needs, which are discussed during an initial in-person consultation. During this first meeting, a client's skin is also assessed, realistic expectations are set, and homecare products are provided, ensuring long-lasting results are maintained. SkinSpa offers its customers a wide range of services, including IPL (intense pulsed light) treatments, laser skin tightening, chemical peels, dermarolling, microdermabrasion, and CryoPen.

The judges were particularly impressed by Shadaya's ability to actively recognise and fill a major gap in the cosmetics and aesthetics market. Having noticed that GPs within Scotland had stopped offering patients CryoPen treatments, unless deemed necessary for medical reasons, Shadaya invested in the technology needed to make the service available in her clinic. This treatment consisting of the removal of skin tags, warts, verrucas and scars, is now one of the most popular amongst the clinic's ever-growing client base.
